Timer/Counter/Hour Usage Clock Displays

Product Details

Series 6300 Timer / Counter / Clock

The 6300 Series display is the most versatile display that we have to offer. The display has large 5.5" tall numbers that are visible up to 125 feet featuring a black extruded aluminum case with red LEDs.

Remote Control

The wireless remote control allows you to advance the numbers, go back a number, reset the numbers, and set up the programming. Multiple remotes can be used on one or more displays. The remote has a range of between 15 to 30 feet (line of sight).

Count Timer

The count up or countdown timers will count days, hours, minutes, seconds, and 100th of seconds.

The timer can be set to any time and begin counting up or down with the press of a button on the remote or with the push button wired to the back of the display.

Clock

With improved internal clock components the result is a very accurate time-of-day clock, available in 4 or 6-digit modes. The 4-digit displays hours and minutes or minutes and seconds. The 6-digit displays hours, minutes, and seconds.
